Puerto Vallarta's Hotel Mousai opens South Tower

The South Tower at Hotel Mousai offers the same impressive views as the original North Tower. Photo Credit: Tafer Hotels & Resorts

Puerto Vallarta's luxurious **Hotel Mousai** has officially opened its new South Tower. Standing adjacent to the original North Tower, the South Tower adds 72 suites, bringing the total inventory to 145. The South Tower features a lobby that includes an expansive viewing point, three new restaurants and a rooftop infinity-edge pool.

Suites have large sliding-glass doors that lead to expansive terraces with Jacuzzis and hammocks. Suites also have king-size beds and are available with connecting doors to form two-bedroom suites. Corner Suites have wraparound terraces for views of either the ocean or the jungle. Ultra Suites sit on the higher floors and have top-tier amenities, like complimentary butler service and complimentary access to the hydrotherapy circuit at Spa Imagine.

The South Tower has its own gym, as well. The three new restaurants include DAO, NOI and the Rooftop Restaurant and Bar. DAO serves contemporary Chinese cuisine, while NOI serves pastas and pizzas. The Rooftop Restaurant offers views of Banderas Bay and the jungle-covered mountains.
