

MEET THE #PREFERREDPUP'S OF INSTAGRAM

Travelling families love their pets and so do the nice people at Preferred Hotels which is why they recently invited guest to contribute to their instagram feed with pictures of their #preferredpets . We thought we'd share some of the cutest canine images on line. What do you think of these five star dogs?

Here are some of Preferred Hotels & Resorts’ pet-friendly hotels:

The Jefferson DC

Guests are likely to run into Lord Monticello, also known as “Monti”, the hotel’s official ECO (Executive Canine Officer). Monti makes sure all doggie guests are treated as he would like to be treated, meaning fluffy dog beds, bowls, and treats in each room with four-legged visitors. The hotel’s concierge staff can share detailed maps with the best dog-walking routes and recommend pet-friendly establishments around the city.

The Mark - New York City

With Central Park right outside the front door, a stay at The Mark is every dog’s paradise. When not mingling with other pets in the park, furry guests at The Mark are spoiled with a plush Molly Mutt dog bed, signature water bowls and placemat, and organic treats.

Hotel Nikko – San Francisco

On the hotel's outdoor terrace guests can take their pets to the "dog run" to let them stretch their legs, get fresh air, and meet other furry guests at any time of the day. If you're lucky, you'll spot Buster, the hotel's COO (Canine Operating Officer) in the lobby greeting guests and hanging out in his dog house which is actually a pet-sized cable car.
